

GLOBAL RESPONSIBILITY

Global responsibility is an integral part of Andritz's business activities. It is reflected in the daily work of our employees and in our management principles and systems. We see sustainability and environmental protection as decisive factors in our partnership with customers, suppliers, and shareholders.

Vision

World market leader for high-tech production systems and services for pulp, paper, steel, and other specialized industries.

Company Profile

The Andritz Group is a global market leader in the supply of customized plants, systems, and services for the pulp and paper industry, the steel industry, and other specialized industries (solid/liquid separation, feed, and biofuel). It is also one of the leading global suppliers of turnkey electro-mechanical equipment and services for hydropower plants. Headquartered in Graz, Austria, the Group has about 10,000 employees worldwide. It manufactures and sells its products and services globally.

The Group is regarded as a technology leader in each of its Business Areas, with full-line capabilities in critical process areas. In addition, Andritz offers comprehensive services including the supply of replacement parts, the manufacture of engineered wear products, and the provision of technical support services, which help customers optimize production and reduce overall costs.
